

Three Levels of Product: Ring Video Doorbell

Core Customer Values:

Safety, convenience, security

- Provides safety by allowing customers to see and communicate with people at their door in real time.
- Conveniently allows users to look after their homes remotely at any time.
- Homeowners have security by being able to watch saved videos to check who was previously at the door if needed.

Actual Product:

High-tech, compatibility

- A smart doorbell with a microphone, camera, light, and motion sensor.
- Retinal 4K camera with 10x enhanced zoom and ability to see a color view in the dark.
- Ring mobile app where users can get real-time alerts and connect with people in their community. Also connects to home devices such as Amazon's Alexa.

Augmented Product:

Warranty, installation, subscriptions

- One year warranty to replace malfunctioning products with defective parts.
- Assistance with installation such as professional installation services, setup guide and help center.
- Professional Protection subscription service so homeowners have access to professional monitoring and contacting of emergency services.
